STATE OF NEW HAMPSHIRE

To the Inhabitants of Milton Fire District in the Town of Milton qualified to vote in district affairs:

You are hereby notified to meet at Engine House Hall in said district on Saturday, the 18th day of March, 1939, at seven-thirty o'clock in the afternoon to act upon the following subjects:

Article 1. To choose a Moderator for the ensuing year.

Article 2. To choose a Clerk for the ensuing year.

Article 3. To choose three Commissioners for the ensuing year.

Article 4. To choose a Treasurer for the ensuing year.

Article 5. To raise and appropriate a sum of money not to exceed $1,500.00 to pay for the retirement of serial bonds and to pass any other vote or votes relative thereto.

Article 6. To see what sum of money the District will raise for general maintenance and improvements.

Article 7. To see if the District will vote to authorize its commissioners to borrow such sums of money as may be necessary to pay the debts of the District and give notes of the District therefor.

Article 8. To transact any other business that may legally come before said meeting.

Given under our hands and seal at said Milton this 25th day of February, 1939.

SAMUEL G. BLAISDELL,
FRANK B. McINTIRE,
STANLEY C. TANNER,
Commissioners.

A true copy of Warrant—Attest:

SAMUEL G. BLAISDELL,
FRANK B. McINTIRE,
STANLEY C. TANNER,
Commissioners.

Report of the Commissioners of Milton Fire District

At the beginning of the year ending January 31, 1939, the district had bills outstanding amounting to $437.35 that had been carried over from the preceding year. Payment of these bills was carried over into this year partly in anticipation of income and pending the settlement of a claim of the town against Ames-Sheahan, Inc. The town has finally secured full payment of its claim. All of the carried-over bills have been paid in full. All of the current bills for this year have been paid in full.

At the beginning of the year the district had notes at the Farmington National Bank amounting to $800.00. At the end of the year the notes at the Farmington National Bank totaled $1,200.00. The increase of $400.00 in notes outstanding was used to pay the bills carried over from the preceding year.

At the beginning of the year the district had $36,000.00 in serial bonds outstanding. During the year $1,500.00 of these bonds matured and have been paid. The bonds outstanding at the end of the year amount to $34,500.00. These bonds will mature at the rate of $1,500.00 each year until they are all paid.

At the beginning of the year the net debt of the district was $36,788.06. At the end of the year the net debt of the district was $35,346.89. The reduction in the net debt of the district during the year was $1,441.17.

Collections of water bills have been fairly satisfactory. At the end of the fiscal year on January 31, 1939, the last water bill had been due one month. On

this date the total water bills unpaid was $160.79. This compares favorably with the amount of $219.82 unpaid on January 31, 1938. The situation on January 31, 1939, was as follows:

Consumers having all bills paid,	83
Consumers owing the last bill,	45
Consumers owing the last two bills,	23
Consumers owing the last three bills,	4
Consumers owing the last four bills,	1
Total consumers,	156

Of the consumers who were in arrears for more than the current bill several are institutions or estates managed by trustees or non-residents. Most of these are considered "slow pay but good." Since the end of the fiscal year most of those in arrears have paid.

During the past year two new service connections were installed at a cost of $35.84. A request for one other service connection was received but due to the considerable expense involved it was not installed. The commissioners decided that it would be best to wait until after the next annual meeting to see if the district would vote to raise funds for this purpose.

During the year commissioner Thomas J. McGrath resigned from the board. The other two commissioners appointed Stanley C. Tanner to serve for the balance of the term.

Respectfully submitted,

SAMUEL G. BLAISDELL,
FRANK B. McINTIRE,
STANLEY C. TANNER,
Commissioners.

Report of Chief Engineer of Fire Department

To the Selectmen and Voters of the Town of Milton:

In rendering my report of the Fire Department for the year ending January 31, 1939, I would state that we were unfortunate in having two serious fires.

This department has responded to thirteen chimney fires, four brush fires, two sawdust fires, two false alarms, and three where buildings were involved.

The department has answered two calls from Lebanon and one from Acton, Maine.

The amount of property involved in fires is as follows:

Value of buildings,	$7,000 00
Insurance on same,	6,450 00
Losses paid,	6,450 00
Value of contents,	5,000 00
Insurance on contents,	500 00
Losses paid,	500 00

The following new equipment has been purchased in the past year: one 2½ by ⅞ nozzle, one 2½ inch Siamese Hydrant gate valve, one hundred pound keg of soda and two gallons of acid. The truck has been inspected and repaired by a man from the factory which remedies the difficulty the truck had given us last fall.

I wish to thank the citizens and the Selectmen of this town, also the Rochester and Wakefield Fire Departments for their cooperation and assistance during the past year.

Respectfully submitted,

CHARLES WILSON,
Chief.

Grave Forest Situation Follows September Hurricane

Woodland problems of timber salvage and fire control created in many towns by the September hurricane are of the greatest importance. GOOD CITIZENSHIP CALLS FOR PERSONAL AND WIDESPREAD ACTION!

The salvage of every thousand feet of logs which can be sold means money for landowners, wages for workers, employment for trucks, teams and machinery, as well as reduced forest fire hazard for all. If owners of windthrown timber have not yet acted, they should communicate with those who can help. TOWN CHAIRMEN are fully informed; STATE ADVISORY AGENTS can help to start logging by suggesting names of operators and giving other useful advice; FEDERAL AGENCIES are increasing the number of log storage places as rapidly as possible. INDIVIDUALS MUST NOW COOPERATE!

Forest fire danger for several years will be greater than usual. So much work must be done by public agencies to reduce hazard along roadsides, near improved and other exposed areas that many places will remain hazardous for some time to come. INDIVIDUAL LANDOWNERS MUST TAKE A PERSONAL INTEREST! Aid in clean-up work through the Agricultural Conservation Program is available to any woodland owner at $4.00 per acre on areas up to 15 acres. The County Agent should be consulted.

Support your local Forest Fire Wardens and Deputies. They are planning, with State and Federal agencies, an intensive campaign to control fires. Help them by strict observance of the fire laws. Kindle no open fires without a permit from the Warden except when the ground is covered with snow. Cooperate by reporting fires you may see and in other ways. Fire

fighting tool supplies are inadequate and should be reasonably increased by many towns. YOU CAN HELP, AND IT WILL PAY, TO PREVENT FOREST FIRES!

SUPERINTENDENT'S REPORT

To the School Board and Citizens of Milton:

This is my fifth annual report. The usual statistics are for the school year ending June 30, 1938.

Teachers

One change in the teaching force this year was caused by the releasing of Miss Sayward to take a better paying position in Rochester. Mrs. Doris Fortin Chase of your own town was selected to take her place, teaching grade two and a section of grade three. All of the elementary teachers employed last year attended 1938 summer school. I doubt if any other district in the State can report 100 per cent attendance. The teachers are to be commended for their excellent professional spirit. Your superinten-

dent is seeing the results of the school attendance in better teaching. There is a better understanding of and a more critical attitude toward the individual child. If your Johnny or Sue is not making the expected progress an attempt is being made to find out why. In addition to summer training two of the teachers have expended considerable sums from their own salaries for the securing of teaching materials which they might have expected the district to furnish.

Miss Northway, Red Cross Nurse, has worked hard and intelligently with the teachers and parents and there has been better cooperation than ever before. The Woman's Club have continued the free distribution of milk to the undernourished. Their efforts are appreciated.

Books

The text book in Arithmetic was changed in September. The one introduced is not radical in its changes but is more "up-to-date" in its methods and problems.

Buildings

Your buildings are kept in good repair. Weather-stripping of the grammar school building in Milton should mean a saving of fuel. No major repairs will be needed in the summer of 1939, but three buildings cannot be maintained without some annual outlay.

High School

You were told in the report of last year that a survey would be made of the Nute High School to see if it would be possible to introduce the Manual and Domestic Arts without expensive alterations. Officials of the State Department of Education have helped us make a survey and have assured us that it can be done. A definite program has been worked out by your Headmaster and the Superintendent, and is in the hands of

the Trustees for action. After the initial cost, the new program can be maintained at small expense, since federal and state funds would take care of about two thirds of the extra teaching costs.

Number visits of citizens 328

Your headmaster is carrying out a plan of organization this year which enables all pupils to take part in the so-called "extra curricular activities." The plan seems to be working well. We believe that Nute High School should have the loyal support of all the citizens. The report of the headmaster warrants your careful thought.

Testing Program

In October, the Detroit First Grade Intelligence tests were given to the First grade children to determine reading readiness. As these words are being written we are giving the Metropolitan Achievement Tests to grades 4, 5, 6, 7, 8. These are the same type of tests that we have used for several years and the comparative data are now being used to see if we are making class, as well as individual progress. The Standard Graduation tests were used in June and will be given again this year.

The School Board has been active and supported both teachers and superintendent in their efforts to keep making progress.

Respectfully submitted,

HOWARD L. WINSLOW,

Superintendent, Union No. 56*.

Why Schools Cost More

The public schools belong to the people and they have a right to know what the schools are trying to do, how well the job is being done and what it costs. This last, because of the unusual economic conditions in recent years, has become an acute issue. There are always some people who think that school expenditures are excessive. This is written therefore to help them understand the reasons.

*The first year when national statistics were available was in 1870. In that year the cost of the public schools in this country was, in round numbers, 63 million dollars. In 1930 it was nearly 2,317 million dollars, an increase of 2,253 million dollars or almost 37 times as much. With the exception of four years from 1876 to 1880 and the same length of time from 1930 to 1934 the increase has been steady. Between 1930 and 1934 the expenditures fell off 26 per cent. The trend is now again upward. About half the ground lost between 1930-1934 has now been recovered. It is expected that for some years to come the cost will

---

continue upward. What are the important factors that account for this trend.

1. The purchasing power of the school dollar has declined just as any individual's dollar has declined. Its ability to purchase goods and services has constantly changed and is changing. It is necessary in some years to spend a larger sum than in other years for the goods and services needed for the operation of the schools. A study made by the author already quoted shows that about 55 per cent of the increase between 1914 and 1930 was caused by the rising prices of goods and services, or to put it the other way, due to the decrease of the school dollar in purchasing power.

2. The number of children to be educated increased steadily between 1914 and 1930. Terms of school were consistently lengthened, attendance laws in all states were strengthened, and better still, enforced. This period also witnessed the rapid growth of the public high school. New high schools established during this period averaged better than one a day. †In 1890 less than 4 per cent of the children of high school age were in school. Now over 60 per cent are in school.

3. Higher standards of education rapidly rose as we moved forward into the post-war period of science and power. Statistics cannot measure these higher standards but they cannot be introduced or maintained without costing money.

‡"Public education is one of the largest of all public businesses. The value of the property of the public schools has reached $6,675,000,000."

REPORT OF THE HEADMASTER OF NUTE HIGH SCHOOL

To the Superintendent of Schools and the Members of the Board of Trustees:

I hereby submit my third annual report of the Nute High School which opened its forty-eighth year on September 6th with an enrollment of 76 pupils. Transfers and withdrawals have reduced the registration until at present there are 68 pupils divided as follows: Seniors, 9; Juniors, 15; Sophomores, 21; Freshmen, 23.

The attendance has been excellent, the average attendance to date being better than 96 per cent.

There has been one change in the teaching staff. Miss Mary Sherburne, B.A., replaced Miss Ruth Paulson.

One new subject, Biology, has been added to the curriculum.

New equipment which has been purchased this year includes the following: a complete set of laboratory apparatus for Biology; four Royal typewriters; one Burroughs adding machine. New text books were purchased for the following courses: Economics, Sociology, French I, and Biology.

Athletics have been self-supporting and have furnished a surplus for the purchase of additional equipment.

As has been stated in past reports, there is still a big demand and need for Domestic Arts courses for the girls and Practical Arts courses for the boys. Estimates have been obtained on the cost of installing these courses in our school. By taking advantage of Federal Aid, one-half of the salary of the extra teacher needed to put this program into operation would be

paid by the George Dean fund. The largest part of the cost would be for the initial equipment and this could be spread over a period of four years. It is estimated that the total additional cost of putting this program into operation will be fifteen hundred dollars for the first year, one thousand dollars for the next three years, and five hundred dollars for each year thereafter. There is no question but what these courses are needed by our boys and girls and I hope that they may be installed next year.

The many helpful suggestions of our Superintendent have been beneficial to the school and staff.

Respectfully submitted,

AUSTIN L. HOWARD,
Headmaster.

During this school year the State Board of Health with your local school nurse assisting, held a Child Health Conference and Toxoid Clinic at Milton Mills, during which eight first grade children received Toxoid, making 10 out of the 12 first grades immunized for Diphtheria.

During May and June the Dental Clinic was conducted by Dr. John Clow of Rochester. The value of this service is being appreciated more and more as evidenced by the growing number of children having complete dental care given. This year the number has increased to sixty.

For the last two years your school nurse has endeavored to keep a record of all children absent from school and the reason why, with the idea of finding out how much colds affect the attendance, how colds are probably contracted and if anything can be done about them.

I find that about half the absentees are caused by colds. Probably some of these are due to carelessness about contacts with those having colds . . . some because of poor nutrition . . . improperly clothed . . . and a few because of abnormal throat conditions.

Through the efforts of the Woman's Club, 25 bottles of free milk have been given daily from November 1st to April 1st. An equal amount has been bought by the children each day. The total number of bottles of milk used was 4,456.

The School Nurse's Section of the Annual Teachers' Convention was attended in October, besides other meetings of the Red Cross, New Hampshire Graduate Nurses' Association and Staff meetings of the State Board of Health. At all these meetings, topics relating to Public Health in general were discussed.

May I at this time thank all the parents, teachers, superintendent and School Board for their generous support.

Respectfully submitted,

MARION NORTHWAY,
School Nurse and Red Cross
Public Health Nurse.
